SUPERMARKET is Stockholm's international artist-run art fair, which aims to provide a showcase for artist initiatives from all over the world and to create opportunities for new networks in the Swedish as well as the international art scene. Initiated and organised by artists, this project has rapidly evolved from a modest group of local initiatives to a full-fledged international art exposition that has made its mark and helped firmly establish Stockholm on the art world map. www.supermarketartfair.com

microwesten consists of a fistful of artists who joined together at the Kunsthochschule Kassel. The initial aim was to keep up the community aspect after finishing art academy by organising collective exhibitions in varying cities and locations. The concept has developed into a dynamic artists' organisation over the years, undergoing slight or more extensive changes depending on the particular event and art venue. www.microwesten.net

artillerie is an interdisciplinary arts venue committed to experimentation in visual arts, performance, film, literature and music. Located in Berlin's gritty yet vibrant Wedding district, artillerie is a project run by a non-profit group of art activists and volunteers.
